

Mr. Timothy G. Goddette
Deputy Program Executive Officer
Program Executive Office Soldier

Mr. Timothy Goddette was selected for the Senior Executive Service in October 2013. As the Deputy Program Executive Officer for Soldier, he is responsible for the development, acquisition, fielding, and lifecycle support for Soldier programs and Soldier as a System concept. This includes their integration with current and future systems to support the warfighter and Foreign Military Sales customers. With a broad portfolio of Acquisition Category I/II/III programs, the Program Executive Officer and Deputy share the responsibility for consolidating each Program Manager's assigned mission into coherent programs that span all budget appropriations. Mr. Goddette is a member of the Army Acquisition Corps and is certified at the highest level in Program Management.

Mr. Goddette graduated from the University of Vermont with a Bachelors Degree in Engineering. He was commissioned into the Corps of Engineers in May 1982 and served in the 14th Engineer Battalion (Combat Corps), Ft. Ord, CA, as a Platoon Leader, Assistant S-3 and Company Executive Officer. He commanded Bravo Company, 10th Infantry Regiment, Ft. Leonard Wood, MO, from Mar 89 to Sep 90.

His Acquisition Corps experience began in 1985 with a three-year assignment as a Research and Development Coordinator at the Corps of Engineer Cold Regions Research and Engineering Laboratory (CRREL), in Hanover, NH. During his tour at Ft. Leonard Wood, he also served in the Directorate of Combat Developments as the Senior Materiel Developer for Demolitions. Mr. Goddette gained considerable experience in program management during his first of three tours at the Tank-Automotive and Armaments Command located in Warren, MI. Serving first as a weapons systems manager for a high-speed bulldozer program, which he later transitioned and followed as Assistant Product Manager for Commercial Construction Equipment. He was later assigned as Assistant Product Manager for Mines Countermines and Demolitions, with duty at Ft. Belvoir, VA, in the Countermines Division and was responsible for all U.S. Army Vehicle Mounted Mine Detection programs. While in Washington, DC, area, he was reassigned to the Office of the Assistant Secretary of the Army, Research Development and Acquisition as the Department of the Army Systems Coordinator for Heavy Tactical Vehicles and Tactical Bridging. During his second tour in Warren, MI, he was assigned as the Product Manager for Construction Equipment and Material Handling Equipment from July 1999 to July 2002. Mr. Goddette served as the Director, Joint Precision Strike Demonstration Office in PEO Intelligence Electronic Warfare Systems (IEWS) from June 2003 to June 2004. He held his previous position as the Project Manager for Force Projection, under PEO Combat Support and

Combat Service Support, from June 2004 to July 2007. He was responsible for managing five Product Managers overseeing 122 programs.

Mr. Goddette previously served as the Director, Sustainment Systems and Simulation in the Office of the Assistant Secretary of the Army for Acquisition, Logistics and Technology since July 2007. He supported PEO Combat Support and Combat Service Support (CS CSS) and PEO Simulations, Training and Instrumentation (STRI).

Mr. Goddette's education includes a Masters in Industrial Engineering from Georgia Institute of Technology, Masters Degree in National Security and Resource Management from Industrial College of the Armed Forces.
